

IMPEACHMENT COURT WILL DELAY RULING

FAIL TO DECIDE ON INCLUSION
OF "MONEY ARTICLES"
AGAINST SULZER.

IS A CRUCIAL POINT

Whole Issue of the Prosecution De-
pends on Permitting Evidence
Relating to Deals in Cam-
paign Contributions.

Albany, Sept. 24.—Final decision on the defense's objection to including the "money articles" of impeachment in the consideration of the Sulzer case will not be given until all testimony has been taken. The court voted 4 to 7 today to follow this procedure. Those voting were all democrats. Governor Sulzer's answers to the eight articles of impeachment filed with the court today entered a general denial to each and every one of them.

Reach Critical Point.
The crucial point in the preliminary works of the Sulzer impeachment trial was reached today. Attorneys for both sides entered the court room with the knowledge that on the decision of the court on the legal objections now before it—that of permitting the articles of impeachment relating to the governor's money deal to enter into the testimony—depended the whole future of the prosecution.

Without these articles of impeachment—the first, the second and the sixth—it was realized that the case of the prosecution would be weakened immeasurably. Such a condition was not calculated to cause the assembly managers to abandon the prosecution, but was to prompt them to use every effort to obtain the passage of additional charges by the assembly to brace up their case.

At all events the governor must go to trial. The attorneys waited only the starting signal, the rule of the court on the disputed articles.
Held for Release.
"Gov. Sulzer swears," getting money that setting votes during the election," declared Eugene Lamb Richards of counsel for the prosecution in his address opening the case against the impeached executive. "All the technicalities and subtleties raised by the respondent have been swept away by this court," began Mr. Richards, "and he must now meet this case on its merits. His crimes against the state are plain as the nose on his face. High is the office and position of William Sulzer, but low and sordid the crimes and misdemeanors which we shall prove against him. His chief offenses are plain fraud, larceny and perjury."

"With these provisions in force what did William Sulzer do. He was nominated on October 2, 1912, and almost immediately he began to solicit and obtain large sums of money for his campaign purposes. He went at his campaign for money with system, cool deliberation and cunning schemes to conceal what he got."

"Five days after he was nominated he made a public announcement that he would have no campaign collectors or financial managers. And yet, at that moment, his private secretary was already running a secret campaign account and he himself, had collectors working for him, securing the city and state for checks and cash."

Preferred Currency.
"He preferred first currency which has no ear marks. Next checks to the order of some one other than himself and if this were impossible he was willing to take checks to his own order. He had more than one 'bag man' which I believe is a favorite expression of his. He had a bag-hunter self, which was as open to a \$10,000 contribution as to \$200."

MILWAUKEE FIREMEN SERIOUSLY BURNED

Three in Grave Condition, and Seven Suffer Lesser Injuries—Eight Horses Scorched.

Milwaukee, Sept. 24.—Inflicting a damage estimate at \$75,000 a spectacular fire Wednesday morning destroyed the coal sheds of the Gross Coal Company, burned three firemen seriously, seven slightly and seriously burned eight fire department horses, one of which will have to be shot.

The firemen were burned while crossing the First Avenue viaduct in response to the second and third alarms, the flames reaching entirely across the structure and enveloping men, horses and apparatus. The firemen were seriously injured are Michael Sheehan, 34, driver, badly burned about face, hands and arms; John Donovan, 38, driver, burned severely; Harry Beck, 26, driver, badly burned about hands and arms, taken to Emergency Hospital.

Seven members of the department had their hands and faces scorched while attempting to approach the intense flames with hose lines, but they continued on duty. The blaze apparently started in the carpenter's shop, above the boiler room, on the north-west side of the building and within fifteen minutes the roof of the entire structure was ablaze. The principal loss is to the expensive hoisting machinery with which the sheds were lined. In order to get to the fire all apparatus from the north side had to cross the viaduct.

Swear First Witness.
At 2:15 o'clock today Secretary of State Mitchell May was called to the stand and sworn as the first witness in the impeachment trial of Governor William Sulzer. He was called to testify that Governor Sulzer was nominated, elected and sworn into office as governor.

"We will concede," said Louis Marshall, for the governor, "that he was duly nominated, elected and inducted into office."

"Do you admit that he has not resigned?" asked Isadore Kresel, for the prosecution.

"We do," replied the governor's counsel, "and that he has no intention of resigning."

After testifying that he had administered the oath of office to the governor Mr. May was excused.

COMMISSION ORDERS CHANGE IN SERVICE

Railroad Commission Orders St. Paul Road to Furnish Better Accommodations Between Madison and Kilbourn.

Madison, Sept. 24.—Train service between Madison and Kilbourn was ordered to be improved by the railroad commission today, when on complaint of Charles M. Morris of Kilbourn, the Milwaukee road was directed either to stop the Olympian train in the morning or restore the morning train formerly operating between New Lisbon and Portage.

The commission dismissed the complaint of G. F. Andrews for a relocation of the depot at De Soto. It also dismissed the complaint of Robert Atchinson of Menasha, Rock county, for the improvement of the highway near the depot there, the Northwestern line having agreed to make the improvement. On complaint of the American Society of Equity the commission directed the Chicago road to give sufficient warehouse space to the society near its depot at Spring Brook, Washburn county.

ALLEGED MURDERER HAS EXACT DOUBLE

Frisco Police Arrest Man Resembling E. J. Ellis, For Indianapolis Murder Case.

Indianapolis, Ind., Sept. 24.—Either Joseph Ellis, alias Fred Brokaw, alias Anderson, alias Fred Bowley, wanted here for the murder of Joseph Schwansky, a second hand dealer in the room in the Onida Hotel Monday night, has an exact double or he is not under arrest in San Francisco, as reported last night, according to the local police.

DEMOCRATIC CAUCUS DEFENDED BY CLARK

Declares County Cares Not For Means Employed by Congress But For Results Accomplished.

Washington, Sept. 24.—Speaker Clark left his gavel today to take the floor to defend the democratic caucus against the republican attack.

"This continual howl about the caucus is the most idiotic thing that has been said since the last generation," shouted the speaker.

"The country wants to know what congress does. It does not care whose whips it does it. We have revised the tariff, put through a bill changing the banking and currency system. If these measures are not good we will be the ones to suffer. If they are we will gain, but we did not propose to let you republicans bring up other subjects on the floor while they were under consideration and district and the attention of the members and of the country from the great issue involved."

Clark said he would not answer republican attacks by calling attention to the way former Speaker Reed and Cannon put through important legislation. "That would be a case of the pot calling the kettle black," he said. "A lot of you fellows have been talking too much for your own good anyhow," concluded the speaker to the accompaniment of a prolonged outburst of applause from the democrats.

WILSON SUPPORTERS CARRY NEW JERSEY

Nominate Their Candidate for Governor, Carrying Every County Except Two, With Big Majority.

Newark, N. J., Sept. 24.—Supporters of Woodrow Wilson nominated their candidates for governor at the New Jersey primaries yesterday, carrying every county in the state with the exception of Mercer and Essex. Fielder's majority in the state was estimated at 20,000.

In Essex the Smith-Nugent assembly slate was nominated over the Wilson men and James R. Nugent was returned to the democratic state committee by a majority estimated at 4,000.

BRIDEGROOM ROBBED ON WAY TO WEDDING

Incident Does Not Interfere With Marriage of D. M. Donahue and Miss Leah Mercier.

Ashtland, Sept. 24.—On the way to his wedding to Miss Leah Mercier of this city, D. M. Donahue of Duluth was held up last night and robbed of his watch and \$86. As he was passing a particularly dark spot Donahue was accosted by two masked men with drawn revolvers. One rifled his pockets while the other kept Donahue covered.

The police were at once notified, but the descriptions furnished by the victim were meagre and no arrests were made. The robbery did not in the least interfere with the wedding ceremony, Donahue hurrying to the church as soon as he was released by the bandits.

TWO HUNDRED DUCKS SERVED AT A BANQUET

Neenah, Sept. 24.—The K. of P. lodge had their annual game dinner last evening at which over 200 wild ducks were served. The birds were shot by hunting parties composed of members of lodge.

CANDIDATES NAMED BY THREE PARTIES

Republicans, Democrats and Progressives of Massachusetts Begin Election Campaign.

Boston, Sept. 24.—Having selected their candidates for all state offices today's primaries the three officially recognized political parties began the campaign today for the state election on November 4th with Lieutenant Governor David I. Walsh of Fitchburg leading the democrats, Charles F. Birch of Walpole the progressives and Congressman Augustus P. Barnard of Hamilton the republicans.

During the next two weeks other candidates may enter the field for governor by nomination papers and it was rumored today that Governor Eugene H. Foss, might run for a fourth term by such independent methods.

Lieutenant Governor Walsh and Mr. Birch won their places at the head of their respective tickets without opposition, but Congressman Gardner had to dispose of Col. Everett C. Benton of Belmont in order to be party leader. The total vote was Gardner 42,432, Benton, 37,022.

There was a lively contest in the democratic party for the nomination, by lieutenant governor which was won by Edward P. Barry, 38,167, Mr. Lane, 30,293. The vote in the primaries was the lightest ever cast in a state wide contest. All three parties will hold state conventions next week to adopt platforms for the campaign.

STRIKE SITUATION UNDERGOES CHANGE

Order of Court Preventing Picketing Being Closely Observed—Seek to Dissolve Injunction.

Columet, Mich., Sept. 24.—A complete change in the copper strike situation has been brought about by the injunction issued by Circuit Judge O'Brien prohibiting picketing by the strikers. The strikers are obeying the court's order to the letter and absolute quiet has reigned in the district since the restraining order went into effect Monday afternoon. The Western Federation of Miners' attorneys will, however, ask the court first that the injunction be dissolved, and failing in that will seek a modification to permit picketing.

DEPARTURE OF DIAZ ERRONEOUS REPORT

Merely Went to Santander to See Daughter Embark for Vera Cruz—Returns to Biarritz.

Biarritz, France, Sept. 24.—General Diaz, who was widely reported in the United States to have sailed from Santander for Mexico, returned here from that port today after having seen his daughter embark for Vera Cruz.

BOSTON DEPARTMENT STORE TO BE SOLD AT AUCTION

Boston, Mass., Sept. 24.—By order of Judge Dodge of the United States district court, the assets of Every-body's Store, Inc., are to be sold to the highest bidder tomorrow at the office of the receivers of the corporation. The property consists of a big department store, one of the oldest in Boston, which was founded by the father of W. S. Butler, who owned and conducted the business successfully for many years. About a year ago W. S. Butler, the son of the founder of the business enterprise, committed suicide in a fit of discouragement over business worries and the business was turned over to a receiver. The profits from the business since November 1 of last year amounted to nearly \$30,000, and under the ruling of the court no bid less than \$175,000 will be considered at tomorrow's sale.

CHARLES FAIRBANKS PRESIDES AT MEETING OF PRESS

Indianapolis, Ind., Sept. 24.—The Indianapolis members of the Associated Press are gathered here today for their annual meeting. The most interesting feature of the gathering will be the banquet at the Claypool Hotel tonight, at which Charles W. Fairbanks, the former vice-president of the United States, will keep toastmaster. Among the speakers will be Senator Kenyon of Iowa, ex-Speaker Cannon of Illinois, Senators Shively and Kern and Governor Ralston.

Automobiles Are Changing Fashions!

People are just beginning to realize it. Manufacturers and merchants saw the trend of things long ago and began to plan accordingly.

Today, for instance, more soft hats for men are sold than ever before, because a soft hat is adaptable for use either on the street or in the motor.

To be up to date one must be posted on what the stores are showing.

They are barometers of the times. They must be alert to live.

Through the advertising columns of daily newspapers the latest fashions you can keep posted on what is going on.

The merchants are not secretive. They need your support to grow. They try to provide the things you want.

They use the newspaper to keep you informed. Their advertising pays them only when it serves you. That's why you should read advertising—so that you can reap the full harvest of service.

APPROVE PLATFORM DRAWN AT ALBANY

Republican Leaders in Washington Favoring Revised Part Rules Express Commendation.

Washington, Sept. 24.—Republican leaders in Washington identified from the first with the demand for a republican national convention to revise party rules and procedure expressed strong approval today of the platform adopted yesterday by the New York republican state convention. They believe the resolutions adopted by New York republicans will have a strong influence toward bringing about a national republican convention early next year for the revision of some of the more seriously criticized rules of the party.

The republican national executive committee which last summer agreed to call the entire national committee (within sixty days after the adjournment of congress) is now being urged to take immediate action. Letters sent to Chairman Hilles last week by Senators Cummins and Jones representing the "conciliation committee" adopted by progressives and some republicans, urged Mr. Hilles to canvass the executive committee and take further steps to secure an early decision as to whether a convention should be called. If such a gathering is held it is planned to have it early next spring so that its decisions may become effective before the congressional campaign.

The specific demands of those who would have a new constitution according to those chiefly interested in the movement here, are clearly enshrined in the resolutions of the New York convention, namely, to allow delegates to determine the method of selecting their delegates to national conventions and to base the representation in conventions upon the number of votes cast for the party candidates at previous elections. This includes having national conventions not only by the republican forces and by many republicans but by Senators Root, Lodge and others who have been active figures in the management of the recent republican national campaign.

TAKE FURTHER STEP IN CHARLTON TRIAL

Officials Conducting Americans' Trial Awaiting Documents From United States.

Como, Italy, Sept. 24.—The preliminary inquiry into the charge against Pietro Charlton, the young American accused of murdering his wife at Lake Como in 1910 was concluded today. The result has not been communicated to the king's procurator. The arrival of certain documents from America is awaited.

AK-SAR-BEN CARNIVAL HOLDS SWAY IN OMAHA

Omaha, Neb., Sept. 24.—The city is filled with thousands of visitors from all parts of the state and also from Iowa and South Dakota, who have gathered here to take part in the great Ak-Sar-Ben carnival, which opened here today and will come to an end on October 4, with a mammoth coronation ball. The city is handsomely decorated and will be gorgeously illumined in the central sections during the whole time of the carnival season. In connection with the carnival many special celebrations will be held, among others "German Day," in commemoration of the landing of the first German colonists in German town, Pa., in 1684. The anniversary will be celebrated with a grand parade of German societies from all parts of Nebraska and South Dakota. The parade will take place on the afternoon of October 2. The parade also be automobile and flower parades, fireworks and spectacular performances every day and evening of the carnival.

NATIONAL SETTLEMENT FEDERATION IN SESSION

Pittsburgh, Pa., Sept. 24.—Many of the most distinguished social workers in the country are among the several hundred delegates in attendance at the conference of the National Federation of Settlements which opened a three days' session here today. Among the most notable workers present are Miss Jane Addams, Chicago; Miss Julia C. Latimer, director of the national children's bureau; and Charles C. Cooper, the resident director of the Kingsley House, the most active of the Pittsburgh settlements.

SIGNED ORDER REQUIRED BY FOOTBALL PLAYERS

Neenah, Wis., Sept. 24.—On account of one of the pupils of the high school being injured in a practice game of football recently, hereafter each one desiring to play the game will be required to furnish a signed order from the parents to the school superintendent before he will be allowed to play in the game, thus taking the blame from the school and placing it upon the parent if the son is injured.

RELEASE ROBBERY SUSPECT AFTER PROVING IDENTITY

Manitowoc, Sept. 24.—Edward Kennedy, who has been held here since yesterday in connection with the triple murder and robbery of the J. M. Thompson jewelry store at Grand Rapids, Mich., and in connection with a robbery at Ludington, Mich., was released when the police officials of the two cities said that he was not implicated in either crime. Kennedy's statement to the effect that he was employed in a canning factory at Ludington, Mich., was corroborated today.

GRANT STEPHENSON FINED FOR SPEEDING AUTOMOBILE

Marionette, Wis., Sept. 24.—Grant Stephenson, son of United States Senator Stephenson and superintendent of the Mashek Chemical Company, of Wells, Mich., yesterday was fined \$10 and costs or ten days in jail for violating the auto speed ordinance. Alleging that the speedometer of the motorcycle of the policeman who affected the arrest was in error when it registered 35 miles an hour, counsel for Stephenson appealed the case to the circuit court.

Prisoner Prudent: Arthur Bell, the steely-jack who was sentenced to five days' imprisonment on pleading guilty to intoxication in the municipal court Monday morning and allowed to continue painting the smoke-stack at the canning factory under the new commitment law found that the wind was too high for him to work this morning and asked of his officials to be taken to the county jail to await better weather.**PROTESTS AT A TAX ON COTTON FUTURES**

PRESIDENT OF NEW YORK COTTON EXCHANGE APPEARS BEFORE TARIFF CONFEREES.

Confronted Committee This Morning When It Assembled for What Was Supposed Its Last Day's Work.

Washington, Sept. 24.—The tariff conference program was radically altered today when A. R. Marsh, president of the New York cotton exchange, was permitted to appear before the conferees to argue against the proposed tax on cotton futures.

When the conference recessed no progress had been made toward a settlement of the question, and Senator Simmons and Representative Underwood went to lunch with President Wilson at the White House to discuss the points still at issue between the two houses.

The conferees expected the income tax and cotton futures sections of the bill would be completed today, but doubt was expressed as to the entire completion of their work before tomorrow night.

Twenty sharply contested issues in the tariff bill remained to be settled when the house and senate conferees re-assembled this morning for what many believed would be the concluding day of their work.

The policy of the administration towards foreign countries involving the proposed retaliatory provisions of the tariff had been toward a settlement of the bill as held today, on goods brought in American ships, and the prohibition against goods made by child labor and other similar features were still to be settled.

Currency Bill Discussed.
The administration currency bill from the view of the farmer and the grain merchant was discussed before the senate banking committee today by a delegation of merchants from the northwest who opposed the provisions of the bill as they expect them to affect the country.**Hold David La Mar.**

Ulster Unionists Hold Meeting Behind Closed Doors Approving of Ulster Constitution.

Belfast, Ireland, Sept. 24.—The embryo parliament of Ulster at present known as the Ulster Unionist council assembled today in Ulster hall in this city to discuss plans for provisional government in the event of the home rule bill becoming law.

Sh hundred delegates were present. The Marquis of Londonderry, Lord Lieutenant of Ireland was the chairman. The meeting was held behind closed doors but consequently an official announcement was issued as follows:

"All the steps have been taken for repudiating the decrees of a national parliament and for taking over the government of the province of Ulster in trust for the British nation. The Marquis of Londonderry, Lord Lieutenant of Ireland, has been elected chairman of the Ulster constitution. The details are not to be published until the day the home rule bill is placed on the statute books."

EMPOWER POLICEMEN FOR JUVENILE COURT

District Police Captains Will Settle Minor Children's Cases at St. Louis Disgraced Boys.

St. Louis, Mo., Sept. 24.—Chief of Police Young today issued an order directing district police captains to take up neighborhood juvenile judges. They will settle out of court minor cases against boys and girls that are brought before them by patrolmen.

This innovation was ordered by the chief of police on the recommendation of Hugh Fullerton, chief probation officer. Mr. Fullerton came to the conclusion that too many boys and girls are arraigned in the juvenile court.

Some of the children he said feel disgraced because they have been before the juvenile court. Their parents count them as though they had been in jail. "I have known of instances in which a family had to move to another neighborhood to get away from the persecution of their children," he said. "On the other hand some boys boast of having been before the juvenile court."

FAMOUS JEWEL THIEVES WILL RECEIVE SENTENCE

Frederick, N. J., Sept. 24.—James McIntyre and Marie Krueger, who pleaded guilty two weeks ago to the theft of diamonds and jewelry worth \$20,000 from the home of Harry L. Hays of Louis Branch, N. J., last, will appear in court tomorrow to receive their sentence. In view of the fact that both have consented to become state's evidence against Reginald Rhind, who is charged with conspiracy in connection with the jewel robbery, it is believed that the court will treat them leniently. According to the testimony in the case McIntyre and Rhind planned the robbery and induced Marie Krueger, who was employed in the Hays household, to pack up the jewelry and gems so as to have them ready when her accomplices should come to the house at night. McIntyre pretended to be in love with the girl and she considered herself engaged to him.

OBSEVE ANCIENT CUSTOM OF APPLE-BUTTER DAY

Pennsburg, Pa., Sept. 24.—In accordance with their time-honored custom the members of the "Schwenkfelders," after the founder of the sect, Casper Schwenkfeld, a German reformer of the sixteenth century, observed "Apple-Butter Day" today at their little Krausdale church in town. Following the ancient custom they gathered at their church and feasted on bread, butter and applesauce in commemoration of the landing of the first Schwenkfelders in Philadelphia, on September 24, 1764.

First Fight Ends With General Shooting Two Boys Killed and Other Seriously Injured.

Cairo, Ill., Sept. 24.—Joseph and John Hill were killed and their brother Bigge Hill was injured dangerously in a family row last night, three miles north of Grand Chain, Ill. The three brothers first had a fight, after which their mother and Joseph Hill swore out warrants for assault against John and Bigge.

When the two latter last night learned of the warrants they hunted Joseph and a general shooting followed.

RANTOUL DIVORCE ACTION REOPENED IN MASSACHUSETTS

Boston, Mass., Sept. 24.—The famous divorce case of Rantoul vs. Rantoul, which was heard in February last, and in which the complainant, Mrs. Rantoul, avowed her love for Chester C. Rantoul, a wealthy society man of Boston and New London, had been a classmate of her husband at Harvard, was reopened today when the petition of Mrs. Rantoul for a modification of the divorce decree came up for hearing in the superior divorce court at East Cambridge.

The proceedings in the divorce case were quite sensational and owing to the social prominence of the parties concerned, attracted considerable attention. Mrs. Rantoul charged her husband with cruel and abusive treatment and was given a decree, giving her the custody of the children during the eight months of the school year and alimony amounting to \$150 a month. In her petition Mrs. Rantoul claims that Mr. Rantoul has violated the terms of the decree in several respects and she demands more alimony.

YIELD OF TOBACCO IS UP TO AVERAGE

On Whole Crop is Exceptionally Good—Improvement in Late and Uneven Fields.

Since the culture, curing and packing of tobacco has become an established industry with us, the condition of the crop as it progresses from seed beds to curing shed is a matter of concern to the many who are engaged in handling it in its different stages and to others who are indirectly affected by it. At the present time it is a subject of common conversation among growers, who had difficulties to contend with in raising it, packers whose capital will be invested in it and employees in warehouse and sorting rooms. It is too early to determine with any degree of certainty the quality of the crop, but a fairly good estimate of the quantity can be made. Regardless of unfavorable conditions early in the season backwardness and scarcity of plants, hot weather at transplanting time which occasioned much resetting, and other drawbacks seem to be the usual acreage and the yield will be about the same as in former years. A number of unusually good crops have been harvested and others are well under way. On the whole we think it may be said we have an exceptionally good crop. It is true that some fields were uneven and the plants have been slow in maturing but even there is shown a

SCENE FROM J. W. BLEASDALE'S TOBACCO FIELD AT JANESVILLE E, ROCK COUNTY, WISCONSIN.

marked improvement during the past week and may give a good count of themselves. Many of our better fields have shown a phenomenal growth from the start and the plants go to the curing sheds in less time and in a better condition than they have done for many years. We reproduce a photograph taken in one of Mr. Bleasdale's fields showing a section of his crop ten days after topping and eight days before it went into the sheds. This tobacco was planted July 7-10 and harvested Sept. 9-15. It, like several other crops we have seen this season, was never at a standstill. It was doing something every day. It stood on the ground. While the dry and hot weather which was prevailing during a part of the growing season may have produced a smaller leaf than is generally desired the loss may be more than offset by firmness of fiber and a more plentiful supply of germs than usual which should aid materially in the curing and sweating process and lessen the danger of injury to the leaf. Under ordinary conditions and with proper attention on the part of the grower, we see no reason why it should not cure down satisfactorily and become a desirable asset when it reaches the dealer.

In this vicinity but few sales have thus far been made. The scattering crops which have been contracted at for no clue to what the prevailing prices will be. The dealer may have this knowledge, but he keeps the information to himself, while the grower is left to hope and conjecture. Many who have heretofore looked upon the business as a side issue have begun to realize that quality has some bearing on the price and have given it more attention. When this practice becomes general the reputation of the product will be enhanced and there will be less contention with the buyer at time of delivery.

PUBLIC WORKS BOARD ON INSPECTION TRIP

Cement Curb and Gutter Work of Present Season is Inspected This Morning.

The board of public works composed of Mayor Fattiers, Councilmen Altimore and Cummings, and City Engineer Kersch, this morning inspected the curb and gutter work which was constructed this year by the contractor for the city, G. D. Cannon. Among the streets which were improved this year and where curb and gutter were ordered constructed were: Harrison street, Gale street, Prospect avenue, Center street, South Academy street, Lincoln street and Forest Park boulevard. In most cases the property owners had the work done themselves but in a few cases the work was done by the contractor for the city. It was this portion which was inspected today.

The Division street paving is progressing rapidly. The foundation layer of rock has been placed in the block from St. Lawrence avenue to South Second street and the same course of rock is now being laid in the second block.

WISCONSIN STREET MUST BE REPAIRED

Council Directs Board of Public Works to Make Improvements at Expense of Contractor.

At the session of the city council yesterday the board of public works was directed to repair South Wisconsin street between South Second and South Third streets, the expense to be charged against the contractor, A. E. Rutledge, of Rockford, and to be taken from the money retained by the city from the amount paid to Rutledge to insure a satisfactory completion of the work. The paving was laid several years ago asphalt-macadam being the material used. The board of public works found the job badly done and did not accept the same. The council waited for the Rockford contractor to make the necessary alterations which he has thus far failed to do and as a result will take the matter into their own hands the cost of the repairs being paid out of money withheld from the amount stipulated in the contract with provision that the paving was acceptable.

The council ordered the city engineer to prepare plans for the extension of the Five Points storm sewer from the intersection of Pleasant and North Washington streets, westerly on Pleasant street to Chatham street, northerly on Chatham street to West

Bluff, westerly on West Bluff to Pine and northerly on Pine to Ravine street.

New sidewalks were ordered in front of three or four different lots, one on Main street, two on Division street and one on Ruger avenue west from Randall avenue.

The council ordered the construction of a manhole in the storm sewer at the intersection of Mineral Point avenue and Washington street.

Paul Heinze was given a permit to erect an addition to his building on South River street with qualifications to decrease the fire hazard.

Sarles for the month of September were passed upon and the salary of Roy Worthington, special policeman for one week and one day's service was ordered.

Workmen Complete New Dormitories and Swimming Pool—Members Enthusiastic Over Building.

Work on the remodeling of the Y. M. C. A. has been proceeding with such speed that it is expected that the entire building will be ready for the members by the middle of the coming month. The new dormitories on the addition have been finished and will be ready for occupancy within the next two weeks.

Downstairs the workmen are giving their attention to the finishing work on the three lockers, boiler and bowling alley rooms. Tile has been laid for the swimming pool, and it stands at present ready for the water. The new showers have been installed and Secretary Kline showed excellent judgment in planning the equipment for it surpassing that of any association in southern Wisconsin or northern Illinois.

Orders for the new steel lockers for the seniors and intermediates have been sent and as soon as the shipment is received the rooms will be finished. No work has been started in installing the alleys for bowling due to the delayed arrival of the material.

Those who have inspected the thirty new rooms in the dormitories declare them to be the finest in any association building in the state. In the center of the rooms ventilation

shafts extend from the roof to the basement furnishing plenty of air. A long hallway extends on each floor giving excellent traffic for the rooms. Each room is provided with plenty of window space and everything that goes to make a model room is provided for.

Every detail has been completed at the new gymnasium except the laying of the cork for the running track and the placing of the equipment. Glass bounding boards for the basketball court are promised by Mr. Kline. The contract for the supplying of the billiards and pool tables has not been closed at the present time but selections will be made before the month is over.

The association with the new improved building, a large double bath, the past membership as plenty of lockers, each class in a separate room, twelve showers, and a large room for the smaller classes.

Regarding details has been transacted. The association has been organized and Kline announces that several men are under consideration and a competent one will be secured to lead the classes.

PREPARE ROADBEDS FOR WINTER MONTHS

Both C. & N. W. and St. Paul Employ Large Section Gangs to Prepare for Freeze-up—New Rates to Coast.

Both railroads operating through Janesville have a large number of section men busy in preparing the road-beds and tracks for the winter traffic. The Chicago, Milwaukee and St. Paul has a force of sixty men working on the three divisions and during the last few weeks they have been laboring on the various belt lines throughout the city and in replacing ties on the C. and M. division road-bed. At present the entire force is being employed in repairing the Janesville yards for the cold weather. Repairs are being made on the platform at the station and weak spots at the yard lines will be remedied with new ties.

Effective tomorrow the railroad tariff agents have authorized a lowering of the rates to the Pacific coast. This includes all points in the coast region. The new rate is listed at \$37.61.

OBITUARY

Mrs. Mary White. Mrs. Mary White died at her home in Johnston Center, Tuesday morning shortly before twelve o'clock. Mrs. White was born January 15, 1834 at West Meath, Ireland and was united in marriage to Christopher White on April 4, 1861. Eleven children blessed this union five of whom survive Mrs. Walter; Peter and James of Johnston Center; Elizabeth, Mrs. Catherine McConkey of Chicago; and Mrs. Julia Cunningham town of Harmony. Mrs. White has resided in Rock county for a period of forty-four years and a wide circle of friends will mourn her loss. She leaves for the cold weather. Funeral services will be held Friday, at ten-thirty o'clock at the St. Mary's church.

Alfred Newton Jones. Alfred Jones aged four years, eleven months and fifteen days, infant son of Mr. and Mrs. Alfred N. Jones, Cornelia street, died at his parent's home shortly before five o'clock Tuesday evening, from convulsions. Besides his bereaved parents, the infant leaves to mourn his loss a sister, Virginia and a brother, Charles. Funeral services will be held at the home at two-thirty o'clock, the Rev. J. C. Hazen, officiating. Interment will be made in Oak Hill cemetery.

MISS FITZPATRICK IS A BRIDE TODAY!

Marriage of Miss Della Fitzpatrick and Maurice J. McCarthy Solemnized at St. Patrick's Church.

The marriage of Miss Della Fitzpatrick and Maurice J. McCarthy was solemnized at seven-thirty o'clock this morning at St. Patrick's church with Dean E. E. Reilly officiating. The bride was attended by Miss Agnes Fitzpatrick and E. J. Welch was groomsmen.

The bride was most attractive in a gown of white crepe meteor and carried a bouquet of white roses. Her attendant was gown in white voile and carried an arm bouquet of pink roses. The ceremony was performed in the presence of a large circle of friends and relatives.

Following the service an elaborate three course wedding breakfast was served at the home of the bride's mother, Mrs. Thomas Fitzpatrick, 706 Elm street. Mr. and Mrs. McCarthy left on the twelve o'clock train for a wedding trip to Minneapolis and Duluth, after which they will reside on Pleasant street in this city.

Miss Fitzpatrick is a highly esteemed young lady of excellent qualities and is popular with the younger social set. Mr. McCarthy, who is employed by the St. Paul road as an engineer, has always resided in Janesville and is respected by a large circle of friends.

Guests from out of town who attended the wedding were: Mrs. Lewis, the island, Ill.; Mr. and Mrs. Ford, Mrs. Moore, and Mr. and Mrs. McQuen, Mrs. Muloney and family of Edgerton; Mrs. Leahy of Chicago; Mr. and Mrs. Thomas Murphy of Rockford; Mrs. Katherine Promader of Chicago; and Mrs. Mae Elder of Port Dodge, Iowa.

Fanning-McQuen. Miss Anna Fanning, daughter of Mr. and Mrs. M. Fanning of Johnson county, was united in marriage to Charles McQuen of Harmony, Wis. St. Patrick's church at seven-thirty o'clock yesterday morning. Father Reilly performed the ceremony. The bride was attractively attired in a beautiful gown of white satin trimmed with chignon and pink lace. She was attended by her sister, Miss Kittie Fanning. Miss Fanning of Janesville acted as best man.

After the ceremony a wedding breakfast was served at the home of Mr. and Mrs. McQuen, 414 W. Main street, the Racine road. Mr. and Mrs. McQuen left on the morning train for a short honeymoon trip to Milwaukee. They will be at home in the town of Harmony on the coming Saturday.

Drumm-Andrews. Miss Genevieve O. Drumm and Frank J. Andrews were united in marriage at six-thirty o'clock this morning at St. Patrick's church, the Rev. Father William Michener reading the wedding service. The bride was charmingly attired in a gown of white shadow lace over silk. Miss Nellie Sullivan was bridesmaid and wore a gown of white embroidered tulle. The groom wore a tuxedo. The young couple has many friends in Janesville.

Sneezing Superstitions. Theocritus stated that a bridegroom who sneezed was sure to be happy and lucky, while Catullus declared it a good omen if two lovers sneezed.

SICK, SOUR STOMACH, INDIGESTION OR GAS

Take "Pape's Diapiesin" and in five minutes you'll wonder what became of misery in stomach.

Wonder what upset your stomach—when portion of the food did the damage—do you? Well, do it better. If your stomach is in revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches, belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quick-surest, most harmless relief is Pape's Diapiesin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

PARCEL POST AIDS WORK OF GAME HOG

Game Wardens Puzzled Over Problem of Preventing Circumvention of State Laws.

A puzzle to game wardens, now that the hunting season is open, is the manner in which the hunters are making use of the parcel post system. It is said that the parcel post unconsciously protects the "bird hog," who is forbidden by law to shoot more than twenty-five birds.

The hunters are taking advantage of the law which prevents the game wardens from inspecting the United States mail, by shooting more fowl than the law permits and sending them to friends. The parcel post regulations allow shipment of dressed game in the 150 mile zone.

Postmaster D. C. Owen said on Friday that the only way to prevent these bird hogs from violating the law would have a law enacted that would permit the postmasters to inform the game wardens that the law is being violated.

PACIFIC OCEAN RUSHES THROUGH BREACH MADE BY DYNAMITE. EXPLOSION AT PANAMA CANAL; WATERS WASH MIRAFLORES LOCKS

Miraflores Locks (top) and explosion that rent asunder dyke between the Pacific and the canal.

The waters of Panama bay now bathe the lower walls of Miraflores locks. On the last day of August the dyke across the canal channel, one mile below Miraflores, was dynamited by a discharge of 20 tons of dynamite and at high tide following the water rushed through the opening in the dyke and filled that part of the canal between Gamboa and Miraflores locks. An 800-ton barge was then sent cruising over the body of water caused by the inflow from the Pacific.

THAT GOSSIP LAW.
The Washington Post passes favorable comment upon Wisconsin's new gossip law. It hits at a vital point in the life of any community and perhaps the law is all right after all if it is not misused. The Post says: "Wisconsin has passed a great many laws, good, bad and indifferent, but the recently enacted 'gossip law' is one of the most humane ever put upon the statute books in any community. Peter Kosowski, of Niagara, Wis., is the defendant in the first test case, and if he has been guilty of the charge of assailing the character of a woman, he should be, and probably will be, severely punished. "Gossip is more insidious than a drug or a poison. The one who indulges in it finds that the doses must be increased constantly to give satisfaction. A sly comment produces the necessary exhalation at first, but later on plain defamation of character is necessary to stimulate the mind of the gossip. "One mild hint of scandal, dropped in a crowd, is sometimes enough to ruin the whole life of a man or woman. There are countless cases where men have become suspicious of their wives as a result of some unjust word which, like a snowball rolling down hill, gained momentum and significance as it passed along. Suspicions almost invariably are twisted into certainties, and many homes have been wrecked by this process. "The Wisconsin law, if properly enforced, will make men and women think twice before speaking ill of their neighbors. It will make them realize the seriousness of their offense. The average person feels that there is no particular harm in retailing a story about a friend or neighbor, but should be made to realize that gossip is the seed for scandal and tragedy. "Wisconsin has placed a really humanitarian law upon the books. We hear a great deal about justice and loving the neighbor as thyself, and yet most of the world indulges in gossip. If Wisconsin has done nothing else, she has directed attention to the greatest of all sins—the scorn that grows to the oak of tragedy."

CONGRATULATIONS OFFERED.
The Elliott Daily News extends its congratulations to the Janesville Gazette on having acquired the Janesville Recorder, in the following editorial. After expressing its congratulations it says: "And in so doing we must express the belief that the Gazette has done wisely in retiring the morning paper from the field and that the Recorder did wisely to sell. It had been apparent that, in spite of a brave struggle to make a good morning paper, the venture was being conducted at a loss and this is something that no one could wish for. "The Recorder will be missed from our exchange table, where it was always a welcome visitor. But even so we would not wish it back at the expense of those who recently had been backing it. "The Gazette will undoubtedly be even a stronger paper from now on than it has been in the past. We often differ with our neighbor on im-

portant matters, but we are always free to acknowledge that as a newspaper the Gazette covers the Janesville field thoroughly. It is not negligent of the news, either at home or abroad, and yet it is well balanced with a generous supply of features, those departments such as women's matter, sporting and comics, together with news illustrations that are so essential to the modern paper that goes into the home. The people will not lose much by the change and the merchants will be enabled to economize on their advertising appropriations. "It is becoming ever more evident that the successful newspaper consists of something more than a fine mechanical equipment, backed with a liberal amount of money, even if managed by a competent editorial and business force. There must be a real need for the publication and it must feel that need in order for it to prosper. The man who is tempted to enter a new field with such an enterprise should think at least twice to determine whether there is such a field or not."

REERUKES PROVINCIALISM.
According to the Christian Science Monitor, congratulations are in order because the United States senate committee has rejected the imposition of extreme "protection" with respect to works of art and have conceded schedules in the new tariff law even more liberal than those which the house passed. Although, historically considered, the party now in power has consistently had a more tolerant attitude toward foreign art products than the party of the opposition, the fact is that the chief champions of a reasonable policy in this particular contest have been Senators Lodge and Root, who, by sheer intellectual domination of the situation and by massing of facts, have forced retreat on the part of legislators whose knowledge of art and interest in esthetics may not be so conspicuous as some other of their personal accomplishments. From American creators of artistic works there is practically no demand for anything like "protection." But from middlemen who, either as reproducers of works of art, or as vendors, profit by their function as next between artists and buyers, there is pressure of a kind that broad-minded tariff makers are fully aware of and know how to resist. But it is when this intrusion of the distinctly commercial motive happens to coincide with, and be backed up by, pressure of another kind, based on unreasonable hatred of art as a luxury of the rich and as a manifestation of culture which it is the duty of real "democrats" to oppose at every opportunity, that congress begins to plan art schedules that are as silly as they are selfish. Had the schedules as framed by the senate been retained, the whole movement of works of art from Europe and from Asia, which is so swiftly enriching American public and private museums and private collections with masterpieces, would have been checked. Fortunately, intelligence has come to the rescue where taste was impotent.

Now that policemen as well as holdup men are toting revolvers in Chicago, it is evident that the position of the innocent bystanders there has become more precarious than ever.

In the absence of a German war scare and with Mrs. Pankhurst in France, John Bull may soon have to take something for that lonesome feeling.

Secretary Bryan's attitude toward the yodlers perhaps is merely an indication that he wants to have friendly diplomatic relations with Switzerland.

Now we know why people who habitually dine in hotels are "different." A German scientist says hotel orchestras are driving people crazy.

Need Bigger Men.

Cooper and the Senate.
Political doers are again suggesting that Congressman H. A. Cooper may be a candidate for the United States senate next year. Ed. Malone proposed Cooper for the job, through the Waterford Post a week ago. The Burlington Free Press took up the suggestion last week. Other newspapers in the state have commented on the idea, and it has served to give the occupants of Milwaukee hotel lobby benches something to talk about. In Racine there are few who have taken the suggestion very seriously. Mr. Cooper's long service in congress has put him in a position to demand consideration if he were to make a campaign, but his closest friends frankly say that he does not believe he would care to fight for any office other than he now holds. He has not the necessary confidence in his vote-getting ability. During the campaign Mr. Cooper seeks to avoid discussion of issues, lest he make enemies and even when on the popular side of questions he prefers to avoid public controversy. For this reason, he would oppose entering into a state-wide campaign for anything. So Messrs. Malone and McGovern need not worry over this feature of their fight for the toga.—Racine Times.

Not Particular.
If Woodrow Wilson is up a stump as to appointments, we are perfectly willing to take the ambassadorship at the court of St. James, providing it will help him out any. Or, we would serve as minister to Denmark, if it would serve to lessen his embarrassment. Providing he would not need us there, we would soon accept the position of United States consul at Zanzibar.

Then again, if that place is taken, we would be glad to serve as private secretary to the consul at Vladivostok.

If all of the foreign plums are gone, we would just as soon be United States marshal at Painted Post.

Falling in that, we would serve our country as a policeman at the outer door of the White House.

Or perhaps, as janitor of the executive offices.

Coming right down the ladder, we would accept the postmastership at Burnips Corners.

Or, if there are no offices, he might send us an autographed photograph of himself.

Or a quarter's worth of United States postage stamps.

We are anxious to prove our patriotism.

Heart to Heart Talks

By CHARLES N. LURIE

HARVEST TIME.
It is the season of harvest. In the fields tell the farmer and his men, working hard to bring in the grain before it becomes too ripe and before the sun or rain shall injure it. Not since the time of plowing and planting have the tillers of the soil been so busy.

When the grain is in comes the time of rejoicing. Work ended and the crop safely stored, the farmer can sit back, smile contentedly at his good wife and calculate his profits. Let us hope that for all honest tillers of the soil it has been a good year, untroubled by drought or untimely and excessive rain, and that their fields have been untroubled by the insect pests which cost us so many millions of dollars every year. Harvest festival time! Throughout the land the churches and societies are celebrating the close of the growing season. They adorn their churches and their meeting places with the symbols of their crops, with fine specimens of the bounties with which Mother Nature blesses our richly endowed land.

It is a goodly custom and a pleasant—the assembling in their accustomed places of worship of our people to rejoice over the garnering of the fruits of the soil. In the life of each man or woman comes a harvest season. Whether the crops be wheat or tares, it comes to fruition in its own time, and it brings joy or sorrow to the grower according to its nature. "By their fruits ye shall know them" is a true saying.

When the wagons bring to the barn of your life their load, will it be the full, fat kernels of the wheat, the rich ears of the corn, the glorious ripe fruits which blossomed in the spring in beauty and waxed big in the summer in sweetness, or will the carts unload at your doors the thistles and the burdocks and the weeds of ugliness? "As ye sow, so shall ye reap," is true in life as it is in agriculture. If you wish the harvest to bring you joy and wealth instead of regret and misery you must prepare the soil in time, you must plant therein the rice sort of seeds, and you must cultivate the ground in toil and patience. You must water it with the waters of righteousness and watch lest the thieves of evil break in and rob and lest the pestiferous insects of sloth devour your substance.

EXPECTS ACQUITTAL ON MURDER CHARGE

Mrs. Laura M. Reuter.

The trial of Mrs. Laura M. Reuter, former society leader, church worker and clubwoman of Tulsa, Okla., for being a party to a conspiracy resulting in the killing of her husband, Charles T. Reuter, a wealthy lawyer, opened Monday. It is being watched with deep interest throughout Oklahoma.

Mrs. Reuter insists upon her innocence and says she will be acquitted. Guy D. Mackenzie, with whom, the state alleges, Mrs. Reuter was infatuated, and Joe Baker, the actual assassin, have already been convicted and sentenced to life imprisonment.

MAKE ROCK NAVIGABLE UNDER THREE MILLION

ESTIMATES OF IMPROVEMENT COST ARE FINISHED BY ENGINEER REEVES.

RESERVOIRS PLANNED

Would Almost Double Quantity of Waterpower Now Being Developed From Janesville Down.

Plans and estimates for the proposed canalization of the Rock river from Sterling, Illinois, to Janesville, prepared by United States Engineer H. E. Reeves of Sterling, show that the total estimated cost of the project is \$2,900,000. This does not include the cost of eight reservoirs, the construction of which is not essential to the navigation project, estimated at \$3,000,000. The figures for canalization include the cost of new dams, locks, excavations, levees, channel buildings, new bridges and changes in existing dams and bridges.

Sees Water Power Owners. Engineer Reeves was in the city yesterday conferring with owners of local water power with regard to the proposed reservoir system which it is estimated will increase the head on all dams by almost as much power as is now being developed. Reeves is now being developed at Janesville, inclusive. All but eighteen per cent of the increase would be by the construction of new dams. The success of the reservoir project will depend upon the cooperation of the water power men.

Engineer's Report Ready. The report of the engineer which is to accompany the plans has been completed and District Engineer Major W. H. Keller at the St. Louis office, prior to his own finished and ready to submit to the chief engineer of the army at Washington. He in turn will submit it to a board of officers who pass upon all river and harbor improvement projects. His report to congress is favorable. It is very probable that an appropriation will be made to begin the proposed improvement. The plans, consisting of forty-one large reservoirs and three of reservoir sites, will be sent to Washington with the engineer's report.

Reservoir Sites. Lake Koshongong, the Madison chain of lakes, the Oconomowoc chain, Huston Lake, Horicon marsh, the Rock river above Ft. Atkinson and the lower Pecatonica river are the eight proposed reservoir sites. These would give an aggregate storage capacity of about 3,000 cubic feet per second. Below Rockton and the mouth of the Pecatonica, a flow of 3,000 cubic feet per second could be maintained, whereas at present it falls so low as 1,000 feet.

Elevation of Levels. The creation of the reservoirs would raise the water in the Madison lakes two feet above normal stage, five feet in Koshongong, five feet in Huston Lake, twelve in Horicon marsh, twenty in the Rock river valley, and twenty in the Pecatonica valley. The lower Pecatonica, Bon-olts from the reservoirs would accrue to water powers on the Rock river all the way down to the Mississippi river. Owners of existing water power plants be expected to pay about one-third of the cost of the reservoirs, the government for the improvement of navigation and prevention of floods, from a fifth to a fourth, and the rest by those who erect new power plants.

Five New Dams. Ten locks and five new dams will be needed to canalize the river, according to Engineer Reeves. A lock will be needed for each new and for each existing dam. One in the Monterey dam would require a lift of eight and one-half feet. One-half mile above the Afton bridge a new dam would have to be put in with a head of eight and one-half feet. A lock for the Pelee dam would have a lift of thirteen feet.

For the purposes of navigation it will be necessary to entirely reconstruct the dam at Rockton and raise the head to eighteen feet, five feet higher than it is at present. A new lock and dam will have to be put in one-half mile above Latham Park which is now a low water dam. Rockton and Rockford. This would have a head of eleven feet and a lock in the existing dam at Rockford would have a lift of the same height. A dam with an eighteen foot head would be put in at Rockton, a dam with an eleven foot lift in the fair at Oregon, a new dam and lock will be a fourteen foot lift at Grand Detour and a lock with a twelve foot lift in the existing dam at Dixon. Below this is the Henry dam, not owned by the government dam at Sterling in which a new lock was recently completed.

Value of New Power. It is estimated that the value of the power will pay for the new lock and dam below the Pecatonica and for the new dam at Afton. The government does not develop the water power but sells the right to private parties on conditions. Between this city and Sterling there is a fall of 133 feet which the present dams have about fifty percent under improved conditions they would develop about 50 per cent of it and with the proposed new dams 90 per cent would be utilized.

Cost of Items. The cost of the different portions of the improvement is estimated as follows:
Dams \$ 524,027
Locks 1,206,705
Channel 1,892,244
Excavation 378,619
Floods 270,177
Bridge changes 441,140
Lock houses 92,000

Modifications to Janesville bridges—the Jackson street, the railway (rest) near Ft. and the Racine street bridges are estimated at \$100,000. This figure also includes the cost of a new bridge over the raceway, and the Monterey dam which will be made a part of the canal.

Rockton Section Expensive. The section of the river which will be most difficult and expensive to canalize is that between Rockton and Beloit, estimated at \$497,999; the least expensive, that between Sterling and Dixon, estimated at \$104,337. The reason why the Rockton section is the most expensive is because of the necessity of rebuilding the dam, the cost of installing a high lift lock on a gravel foundation, a large amount of excavation, two new bridges over the raceway, and the raising of several bridges. The cost of improving the section from Beloit to Afton is estimated at \$282,000; from Afton to Monterey, \$183,000; from Monterey to Court street bridge, \$208,309. Engineer H. E. Reeves has recommended that the improvement not extend above this point, although if the people of Janesville desire it could be carried as far as the upper dam.

Contrary to the impression held by many the making of the Rock river navigable does not mean the excavation of the entire channel to a depth of seven feet. This is only practicable on short flowing miles of great volume such as the Mississippi. It would turn a stream such as the Rock river into a swift current that would be un navigable and result in the water flowing away in a very short time. The proposed channel is 150 to 200 feet wide on the curves. Locks will be thirty-five feet wide and 310 feet between gates.

Importance of Reservoirs. Reservoirs are not essential to the navigation of the river with canalization it would be impossible with a flow so small as 150 cubic feet per second. All the water needed would be that necessary to operate the locks. The straight sections and 150 to 200 feet wide on the curves. Locks will be thirty-five feet wide and 310 feet between gates.

Navigation Possibilities. A channel such as is planned could be used by barges of 500 tons capacity. Figuring the capacity of the average freight car at 30 tons, each barge could carry a dozen equivalent to more than fifteen freight cars. Three barges would be equivalent to an average loaded train. Barges of smaller size are being used profitably in the transportation of salt from Chicago to Denver, on the Illinois and Michigan canal, the Hennepin canal and Rock river. The Illinois and Michigan canal has a depth of only about four feet, but a depth of is considered.

Municipal Dock Site. An excellent site for municipal docks is at the Jeffers property at the bend in the river between the grain and the Janesville Machine Company siding, according to Mr. Reeves, and a convenient site for transfer from railway cars to barges is just above or below the Monterey dam. The bend where the tracks of both the Chicago & Northwestern and Chicago, Milwaukee & St. Paul railways parallel the river banks. The channel follows the west side of the river from the Monterey dam until it meets the bend and then crosses to the east bank to pass under the Racine street bridge.

Engineer in Beloit. Engineer Reeves went to Beloit this morning to confer with water power men concerning the proposed reservoirs and river improvement and will also meet water power men in the other river cities.

FINISH EXAMINATION WOULD-BE CITIZENS

Few Fail of Admission—Most of Candidates Residents of County for Many Years.

Examination of candidates of naturalization at the present term of the circuit court was completed this afternoon. Up to the noon recess one hundred and thirty-five had been examined and admitted to citizenship and the remaining fifty or so who had made application by the time court adjourned. Two or three applicants were dismissed without prejudice because their witnesses were insufficient, and one to better inform himself as to the government of the state and nation. Examiner E. L. Roethe of Chicago, a representative of the United States Immigration Bureau, who with Judge George Grimm conducted the examinations of candidates for citizenship, reports that nearly all of them were men who had lived from twenty to fifty years in this country and had been voters on first application papers until the amendment of the state constitution requiring second papers of voters not native born came into effect last December. In order to preserve their franchise they took out second papers.

They were a fine class of men," said Mr. Roethe, "and not to be compared with the average body of immigrants seeking naturalization as to intelligence and knowledge of the American government."

FRESHMAN BANQUET MAY BE ABANDONED

Buell Advises Against Reception to Lower Classmen Owing to Unseemly Hazing Last Year.

Owing to the unseemly actions of members of the last year's sophomore and junior classes of the high school in hazing the freshmen at the time of the annual reception and banquet, Superintendent Buell has announced that there will be no function of the kind this year.

This event, which was inaugurated some years ago by the seniors, has been an annual affair given by the upper classmen and has been one of the delightful social gatherings of the year. If it is discontinued it will be a matter of regret to both the seniors and the members of the incoming class.

Several boys were arrested last year for their disgraceful conduct toward the freshmen members and it is the intention of Mr. Buell to prevent a repetition of such behavior. A petition is being circulated, however, among the sophomores and juniors in which they promise not to refrain from having operations on the night of the banquet. A large number of signatures have already been secured and the list will be presented to Prof. Buell shortly with the request that he allow the reception and banquet as usual.

I have in mind Battling Levisky, who has ripped the socks off everything that has been coaxed into the same ring with him. Levisky has most decisively beaten One-Round

Vermilion high school team has enjoyed the tutelage of the Rev., and they are improving each season. This fall they have a strong schedule and are looked to by some of the fastest high school teams in the state.

The average fan will hardly realize what satisfaction it was to Johnny Kilbane to trim Jimmy Walsh so decisively at Boston the other day. Ever and anon since Johnny won the title it has been said of him by unfriendly critics that he was a boxer

Davis, Bearcat McMahon, Porky Flynn, Al Kubiak and everyone he has met. Gunboat Smith and Frank Moran, when approached with an eye toward getting a match with Levisky, seem to prefer to talk about something else. Levisky is twenty-two years old and might be said to be a replica of Jim Corbett. He weighs 160 pounds and at that weight he has put the cleaner on Jack Dillon and Eddie McGorty. Every time he re-enters the ring he looks better and he's coming fast. I'm here to say that in six months he will put that trinity of colored, viz., Jeannette, Langford and Johnson, all of them, in the fatally injured list. So it would appear that Mr. Morgan thinks very well of this new fighting marvel.

Rev. Williams of the Congregational church at Vermilion, Ohio, is the leading spirit in football circles at Vermilion. Previous to the clergyman's arrival there two years ago there had never been a thoroughly organized football team in the town with a well ordered schedule for the season. Rev. Williams succeeded in arousing interest among the high school boys and offered to coach them himself. For two seasons now the

and not a fighter; that he didn't have the wallop. Some have gone so far as to suggest that he was a "classe champ," which, of course, any fair-minded person knows is quite unjust. In Boston, particularly, Kilbane has been very much under-rated and Jimmy Walsh has always been the idol of the town. After the bout last Tuesday night the opinions of Boston fight fans underwent considerable overhauling. Walsh was so utterly and completely out-pointed that all present could see the injustice that had been done the champion. Had Walsh only showed a little fight the Boston fans would have had an even higher estimate of Kilbane's ability. But the Boston idol clinched and re-clinched throughout the fight so that Kilbane had hardly a chance to get in a few stiff blows. In the tenth round Walsh showed a little willingness to fight and here was the only opportunity for Johnny to show his punch. And a clinch after arising on the ninth count was all that saved Walsh from the K. O. Boston fight fans today realize that Kilbane is more than worthy of the belt.

FOOTBALL NOTES.

The Holy Cross players are working at the tackling dummy this fall for the first time in five years.

E. F. Ver Wiebe, Harvard's great 1908 halfback, is on the official list for games in the West. He is in Minneapolis.

Coach Robinson, of Brown, is up against it with only four veterans, Captain Henry, Mitchell, Bean and Andrews, on his football squad.

Being handicapped by the lack of heavy men, the Dartmouth squad plans to develop speed to be used in open plays and the forward pass.

Pennsylvania has lost one of its most promising candidates for quarter back, Walter Craig, who is kept out of the game by an old head injury.

The Vanderbilt University eleven will play at Eastern eleven this year, Michigan being its most important opponent except the University of the South.

The Cornellians are having two long practice sessions daily. Al Sharpe is coaching again and has one of the biggest squads ever organized at Ithaca.

ROCKFORD GOLFERS MEET DEFEAT HERE

Janesville Players Win in Return Match With Rockford Club by 46 to 23 Score.

With ideal weather prevailing and with the links in superb condition the match between the Rockford and Janesville golfers here yesterday was played in excellent style. The Rockford men were defeated, the score being 46 to 23 against them, but taking it all around they made an excellent showing. To one of the visiting players goes the honor of making the first hole in two. His drive landed the ball within several feet of the hole which made the last shot an easy one.

There were twenty-eight pairs entered in the match and scores were as follows:

E. D. Keller	2	A. Schaller	1
W. Ingerson	0	S. Tallman	0
H. P. North	0	B. Brewer	3
W. E. Putnam	0	F. Schaller	3

J. Lawton	0	Earley	2

Total 23, 46. Social festivities were not lost sight of. During the afternoon the ladies who accompanied the visiting players were entertained at a bridge party. There were ten tables with honors falling to Mrs. Keller of Rockford, and Mrs. Stanley Tallman of the local players.

Over a hundred were present to enjoy the club dinner which was served at six-thirty after which a dance was enjoyed. Among the numbers on the dance program which were especially featured were the refined tango and the hesitation waltz. The Rockford party left on the ten o'clock car.

AMERICA'S LEADING GOLFERS MERE YOUTH

Francis Ouimet, the young golfer whose wonderful playing in the recent national open championship at Brookline, Mass., stamps him as America's leading player, is not yet twenty-one years of age, and is a native of Brookline. At present he is employed by a Boston business concern, but he was at one time a caddy on the very field where he won such signal honor last week, tying Harry Vardon and Edward-Ray, England's famous professional golfers. He is an amateur.

BASEBALL CHATTER

Max Carey, of the Pirates, is both the leading run-getter and base-stealer in the National League.

Each of the eight clubs of the Nebraska State League played the full number of scheduled games this season.

Hess of the Braves, and Yingling of the Superbas, are the only pitchers in major league company batting for 300 or better.

For the second time in succession Joe Millan has piloted his Oshkosh team to championship honors in the Wisconsin-Illinois League.

In the thirty-seven innings that Walter Johnson has pitched against the New York Highlanders this season, the Highlanders have made only one run.

Speaking of presenting an automobile to the most valuable player to his team, in the National League, why not take a slant at the work of one Jacob Daubert, of Brooklyn?

Mike Balenti, the Indian shortstop of the St. Louis Browns, and former Carlisle player, was once the property of the Athletics, but was never tried out by Connie Mack.

Without a batsman, run-getter or a

base-stealer anywhere near the honor list, the White Sox have put up a grand battle for a place in the first division of the American League pennant race.

Tris Speaker has the best all-around record of any player in either the American or National League. The Red Sox star stands third in batting, third in base-stealing and seventh among the run-getters.

Tuesday, September 30 has been named as "Tyler Day" at the Boston National League park. A delegation of fans from Deery, N. H., Tyler's home town, will be on hand to give the Braves' star southpaw a rousing welcome.

HIGH SCHOOL TEAM SHOWS IMPROVEMENT

Backfield Strongest Part of Eleven.—Eleven in 'Sad Need of Good Kicker and Heavier Line.

Football prospects at the Janesville high school are becoming brighter at every practice as the squad is showing a marked progress and a wonderful advance. The backfield is showing the greatest improvement and gives promise of taking care of the offensive side of the game in great style.

The line will have to buck up in the art of hitting their opponents and opening holes for line plunges. The two ends are showing a lack of knowledge of blocking plays but Coach Curtis will undoubtedly be able to thoroughly drill them in their respective duties at the wing positions. Stewart was shifted last night from end to tackle, at which he is more experienced and the change has added more strength to the team's weakest part, the tackles and guards.

No scrimmage was held last night. Coach Curtis sent the candidates through a stiff signal practice and instructed the quarterbacks to rush the team up and down the grounds with the snap and vim that takes the fight out of their opponents. Hayes and Pond are leading a merry fight to land this important place and both are running about equal. Dearborn, Atwood, McVicar at halves and Dalton at full promises to become the regular men and if Hemmings decides to try for a position, stock for a successful season will receive another boost. At present the team is without a good kicker as Atwood and Dalton are the only men able to boot the ball at any distance and both have never given much promise at this line of the game. Hemming would also add great strength to the eleven as he is a good kicker.

Coach Curtis is giving the team their formations and shifts which had been so successful during last year's season. With the new kicking rules successfully built, gain-holding plays can be built around the short kick plays. With another week's practice and improvement in the line the Janesville high school eleven bid fair to finish a successful season.

Gertrude says winning that beauty contest started her on the road to fame, and she doesn't want it published around that her sister carried off the prize.

BODY OF LATE MAYOR GAYNOR LYING
IN STATE IN LIVERPOOL TOWN HALL

The casket bearing the body of the late Mayor Gaynor of New York, who died suddenly aboard ship while enroute for England, lying in state in the town hall at Liverpool, on the beautiful bier on which reposed the body of the late King Edward of England. The bier with the catafalque and candlebras had been used on the occasion of the death of the late ruler of England, and had been brought especially from Westminster Abbey. They were placed at the foot of the grand staircase of the town hall.

Standing guard at each corner of the catafalque were members of the city police, and throughout the night relays of officers kept up the vigil. The American flag draped the casket on which rested a beautiful wreath from the lord mayor of Liverpool and one from the American consul.

LOCAL MARKETS.

Janesville, Wis., Sept. 24, 1913.

Excellent peaches for eating and canning purposes are being shipped to this city at the present time, both the Colorado and Michigan varieties selling at a great demand. The latter Michigan product is far superior than that which was sent in during early part of this month. A few melons were for sale on the market today, the heavy frost not killing the melons to any great extent. Calfwheat was very scarce for this time of the year and was selling at twenty cents per bushel. The home grown product was selling at a more reasonable figure from a shilling to fifteen cents per bushel. Butter and eggs are still up.

TWENTY THOUSAND FRIENDS OF "BIG TIM" MOURN AT HIS FUNERAL; BOWERY THERE

At "Big Tim" Sullivan's funeral: "Boss" Charles Murphy (foreground) and Timothy Foley.

Twenty thousand loyal friends of Co-gressman "Big Tim" Sullivan were present at his funeral in New York Monday. From the Bowery, where Sullivan rose from newsboy to political leader, there was a great outpouring. Among the noted men who were present was "Boss" Charles Murphy of Tammany Hall, who was an honorary pallbearer.

Infantile. When the baby gains three pounds in two weeks it's because he's so naturally smart; when he doesn't it's the milkman's fault.

Best Prayer. The best prayer at the beginning of a day is that we may not lose its moments.

Art Criticism. "I don't like marble statues," said the flimsy young thing. "They always look as if they had a cataract or something of that kind the matter with their eyes."

WEATHER BUREAU.

JANESVILLE, WEDNESDAY, SEPTEMBER 24, 1913.

EXPLANATORY NOTES.
Observations taken at 8 a. m., 75th meridian time. Air pressure reduced to sea level. Isobars (continuous lines) pass through points of equal air pressure. Isotherms (dotted lines) pass through points of equal temperature; drawn only for zero, freezing, 50°, and 100°. Clear; partly cloudy; cloudy; rain; snow; report missing. Arrows fly with the wind. First figures, lowest temperature past 12 hours; second, precipitation of .01 inch or more for past 24 hours; third, maximum wind velocity.

WEATHER CONDITIONS
The atmospheric disturbance from the southwest has now reached the upper Mississippi valley, and is attended by continued rain and snow throughout the northwest, and by a marked warm wave, or sirocco in the Mississippi valley.

The cold wave in its rear has spread over the entire rocky mountain and plateau region. Minima of 30 degrees and below were reached in Colorado, Utah and Nevada, as well as in states to the northward of them. The barometer is high, and the weather fair throughout the East.

Negative.

The Evening Chit-Chat

BY RUTH CAMERON

WHAT GOOD WOULD THAT DO ME?

A FRIEND of mine had some expensive lingerie stolen from a suitcase which she had checked on a railway trip this summer. Owing to peculiar circumstances, she did not discover the loss for some weeks, and she was then told that it was too late to get restitution.

Whereupon she dropped the matter without notifying the company or making any complaint.

Do you think that was right?

I told her so, and she said, "But why should I bother to report it? It's too late to do me any good."

"Because if you tell them of your loss, the railroad officials will be on the watch to catch the thief, and thus save other people from losing their lingerie."

"But what good will that do me?" she persisted.

I gave it up.

Altruism, the belief that it is up to you to make the world a good place to live in for other people as well as yourself, is surely needed in this world.

"What good will that do me?" is a barrier beyond which many people are quite incapable of looking.

In this particular line, for instance, I don't suppose that one person out of ten would bother to make the complaint when it is too late for him personally to be benefited by it.

Not is this indifference confined to intensely selfish people. I know a distinctly generous and kind-hearted woman who was the victim of an inexcusable carelessness in regard to the transmission of a telegram. Her husband was hurt in a railroad accident and was dying.

Three successive telegrams were sent to her telling her that her husband was dead.

Of course an investigation would not have done her any good, but it might have saved some other woman from a similar terrible experience.

And you, I do not mean that one should always be making complaints about foolish little things such as a shop girl's impatient answer, or a telephone operator's mistake. Such fault finding is inexcusable, of course. But when serious wrong is done you, that is quite another matter.

"It's no good to lock the barn after the horse is stolen," is not always a true proverb. You may prevent the thief from coming back after your carriage. Moreover, if anyone else has property in that same barn, you may save him from loss, and the willingness to do this is that rare and beautiful quality which the world needs so sorely—altruism.

ANXIOUS.

(1) Do like the girls do and massage your cheeks, with a rotary motion, every day, with cold cream. Pull out your cheeks as often as you can think of it. Have you ever noticed that men who play the big horn always have plump cheeks?

(2) Usually a person flits out after he stops growing. I can't tell you any better way to fill out than eating a lot of fattening foods, such as beans, peas, lentils, cream and milk. It is natural for a healthy boy to be thin, however, so don't worry. It's usually the lazy ones who are fat.

Dear Mrs. Thompson: I am seventeen years old and have a boy friend twenty years. He has asked me to marry him when I am eighteen. I do not like him well enough to marry him and I do not want to get married so young. But he loves me very much and cannot stay away from me. He is heart-broken because I refuse to marry him. What can I do to get rid of him?

Make yourself unattractive to him. That is the surest way to get rid of him. He won't trouble you any more. Look ugly and slovenly, show a bad temper, and if you have any younger brothers and sisters, try to have them around crying or making a fuss whenever he calls. Oh, yes, you can get rid of him if you want to.

Domestic Science DEPARTMENT

CONDUCTED BY Mrs. Alice Gitchell Kirk

GREAT CARE MUST BE USED IN DOUBLING OR DIVIDING RECIPES.

There always hovers somewhere in the mind of the young housekeeper doubts about a recipe which is to be doubled or divided. Most recipes written today by our cooking authorities are generous portions for four or six persons may be served easily if an entire is made as an extra.

If the housekeeper has learned to be accurate in her measurements she will find no difficulty in making any variation she may choose, but she must first know exact results from the given directions. When the ingredients are to be increased to very large quantities then it is better to make the proportions as given or only double the quantity once as in too large quantities it is very difficult to mix in ingredients and seasoning even though the measurements are carefully followed.

For instance, a chicken croquette recipe I have given in which makes it very easily multiplied and divided. A quart of chopped chicken will make a dozen or fifteen croquettes, depending upon the size; so if a very large quantity is desired double the recipe, putting each batch away to cool and by the time enough are made the first will be sufficiently cool to handle. If a large batch is made it takes a long time for it to cool.

Substitution in recipes frequently changes some of the ingredients. For instance, if one used sour milk in place of sweet, bicarbonate of soda must take the place of baking powder. If sour cream is used it not only takes the place of milk for the liquid, but the shortening as well.

The recipe for milk biscuits is: Flour, one quart; baking powder, two teaspoons; salt, one teaspoon; shortening, two tablespoons; milk, one and one-half cups. Stir, baking powder and flour together, rub in the shortening, add milk, mix as little as possible, roll out, cut and bake in a hot oven.

Suppose you have sour milk to be used as a matter of economy. Then rub the shortening and salt with the

flour, moisten one teaspoonful soda in a little water and add one and a half cups of sour milk, beat a moment and add while foaming to the flour, roll out and bake as for baking powder biscuits.

Suppose sour cream is used, omit the shortening and bake as described.

Chicken Croquettes.

Materials—Chopped cooked chicken, one pint; milk, one-half pint; butter, two tablespoons; flour, four tablespoons; chopped parsley, one teaspoonful; grated onion, salt and paprika, a dash of cayenne, fat.

Directions—Clean and separate the chicken as for a fricassee. Put into the stewpan and cover with boiling water, boiling five minutes, then simmer until tender about one and a half or two hours. At the end of the first hour add one small onion, a dozen cloves, two bay leaves, one teaspoonful of salt, a fourth teaspoonful of celery seed or a little fresh chopped celery if you have it. When done cool the chicken and chop. If you have one pint of the chopped chicken use other proportions given.

Put the milk into the double boiler, rub butter and flour together, adding a little hot milk so as to pour into the remaining milk in the boiler, stir and cook until it is thick. Add all the seasonings to the meat and then to the sauce. Stir until well blended. The quantity of mixture for croquettes, dip in bread crumbs and then in beaten egg and one tablespoonful of warm water mixed, and then in bread crumbs again, being careful to cover the whole croquette. Fry in smoking hot fat until a rich brown, drain on blotting paper. Serve on a hot dish with a piece of parsley in the top.

Ham and Tomato Timbales.

Material—Cooked tomato pulp, one pint; eggs, four, salt, one teaspoonful; pepper, minced ham, one pint; white crumbs, one-half cup.

Directions—Use fresh or canned tomatoes cooked to a pulp. Strain, use pulp, then add the remaining ingredients. Pour into a buttered mold, stand in pan of hot water which comes nearly to the edge; bake in not too hot an oven until firm in the center. Invert on a hot dish.

Squab en Canape, a la Planchette.

These are delicious. Cut slices of bread an inch and a half thick from the wide part of a Vienna loaf. Remove the crust, hollow a cavity three-quarters of an inch deep and half an inch all around from the edge.

While the squabs are cooking brush the bread inside and out with butter and brown in the hot oven. Spread the cavity with a thin layer of mashed potatoes, slightly sprinkled with chopped parsley; lay in the richly browned squab, breast up, pour over it a spoonful of gravy and serve hot.

Every Day Talks for Every Day People

By FRANCES JOYCE KENNEDY.

This must be the season of discontent, for so far this week I have received five letters that are—I may lapse into slang—"call-downs" of the first water. One woman signs her name, gives her address and says that I am quite slandering at the women and tell the men a few things it would be very well received. Would it? I am of the opinion that the woman that tries to advise a man as to how he should run his ship of state is on the way to defeat, sure and certain, probably humiliating.

Then, too, the job is too big for me, I respectfully pass it on. Any one want it? Any woman want to be self-appointed adviser and critic to his majesty, John? How would you start? Would you try (oh?) to get him interested? Then study the baseball score, that works like a charm, never known to fail. Or, you could get him his slippers and pipe (sounds cosy) and with your most ingratiating smile appraise him of the fact that you have a new book to read to him on the great good to be derived from Eugenie Marjaree, and the raising of a new species to be the regenerators of our race. Providing our poor, over-taxed-with-fads race can stand the strain. Yes? What if when you launch forth in your best story telling voice, friend John would evince signs of restlessness, or discontent? Horrid! Thing! If you began in the morning, undismayed by the frost of the right before, to tell him that he should eat this, he should eat that, he must try a new breakfast drink that is far superior to coffee and that he must never read at the table. If you, in your praise-worthy efforts, tried to gently advise John (thusly, he should casually remark that he is able to keep silent is an accomplishment, what then? Nasty man! If after all this, you were still in the race and with your tender heart over-flowing with zeal for John, poor John, who if he is a bit stubborn (no, not a bone-head), is the best grown up baby in the world, you hie yourself to the city to buy a gift for the dear boy and after much seeking and many misadventures you find the purchase of a perfect love of a needle, such a bargain too, and bear it triumphantly home as a peace-offering; if, after all this John is heard to utter words that no Christian man should utter, what then? Why don't you be a stickler, know when to quit. With as much dignity as you can muster up resign your position as self-appointed adviser to John, and under no consideration, ever take the post again. It don't pay, it's a precious time wasted. Shall we say shame on John, or shall we have a sneaking regard for his ability to run his own life's boat?

We would resent John coming in and saying: "Mary, did you bathe little Sammie this morning, did you brush Susie's hair one hundred strokes, as I told you, and did you feed the cat?" Hurray—to the point of foolishness—would be the John that would come home and thus declaim. What if he'd say, "Mary, I do not approve of the skirt you wear, in my youth days, you amongst them, wore garish skirts, I request you to wear such skirts." What then? Frigid atmosphere, or heated debate?

John would be seven kinds of a simoleon to ever engage in the gloomy task of giving YOU advice. YOU are smart, you know, you can run your own affairs, and as far as you are concerned he is talking to an empty house. No blame should be attached to you or to John either, for presenting such interference. We all live to make our own ship. So, to my letter friend I will say that the task of advising one's own business is

about enough to keep the majority of us well employed. When it comes to our advice, speech is silver, silence is gold.

ABANDONS MACADAM AS ROAD MATERIAL

Recurfacing New York Old Roads
With Asphaltic Concrete Wear-
ing Surfaces.

New York state, which has expended millions on its state roads and has one of the finest highway systems in the United States, is abandoning macadam as a road-building material, according to Commissioner Fred Tomlinson, head of the street department of the city of Superior, who has just returned from a trip to the east.

"Not only is macadam being abandoned as a good building material, but the macadam roads are being resurfaced with asphaltic concrete wearing surfaces," says Mr. Tomlinson. "The expense of doing this work is enormous, but they seem to think it worth while."

"The more I saw of the roads in the east the more I was satisfied that concrete is the proper material for highways and light traffic streets. If the New York roads had been built of that material they would not need new wearing surfaces now. Running out of Detroit, Mich., I saw mile after mile of concrete highway, all in excellent condition and giving satisfaction. The increased cost is more than offset by the low cost of maintenance, and durability."

SLEEP

During sleep the necessary body-repairs are carried on in the "human workshop."

Any thing that prevents sound sleep at the proper time (at night) will sooner or later prevent "smooth running" during the day.

That "drowsy feeling" in the forenoon (when everyone should feel bright and fit) is often caused by want of sound, refreshing sleep the night before.

Very often the habitual use of coffee is back of sleepless nights.

**Drowsiness during the day

POSTUM

It contains the vital phosphates from wheat required by Nature for rebuilding the tissue cells in muscle, brain and nerves.

It is pure and free from the insomnia-producing drug, caffeine, found in coffee.

Postum comes in two forms:

REGULAR POSTUM—must be well boiled.

INSTANT POSTUM—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with the addition of cream and sugar, makes a delicious beverage instantly.

**Postum induces restful nights
and successful days**

MOTHER EVE, the woods went creeping; she had no books on woman's looks, no fashion plates distressing; she was not dense—her own good sense inspired her in her dressing. And Adam gazed on her amazed, and cried: "God dem my gal ways! Without a crown, to buy a gown, she's looking scrumptious always!" In modern times dames have the dimes to buy all kinds of dresses; little but their tresses, no fashion rags clothe withered hags and maidens young and tender; and jeers and sneers assail the ears of modesty's plumes. Alas that we should be led out by by frills and ruffles; rotters; we well may grieve that Mother Eve had more than her daughters. Some day the dame who sows her frame and every joint, by golly, will wonder why the gods on high allowed such crazy folly.

COOPER TALKED OF AS NEXT SENATOR

Friends of Congressman, Suggest His Name For the Nomination.
Some of the Friends of Congressman

H. A. Cooper are pushing him into the line light as a possible candidate for United States senator next year. This is not the first time Mr. Cooper has been proposed for senator, but each time he has been crowded off the track just as it is probable he will be this time.

Furthermore, it is more than likely that Mr. Cooper will prefer to make a run for a renomination for congress in the First district where he has held the field against all comers during the last twenty-three years. His district has been changed by hopping of Green and La Fayette counties and the addition of Waukesha county. The change, however, is liable to be more of a benefit than a detriment to Cooper, as the interests of Waukesha and Racine counties have more in common than was the case with the counties in the western part of the state.

So far but one has been mentioned against Mr. Cooper for the congressional nomination, Judge Rosa of Beloit.

May Find Opposition.

That does not mean that he will be the only one, when the time comes for an active campaign, to be opposed. There will be more opposition. This has been the case each time he came up for renomination and each time he has won easily. From all that appears now there seems to be no likelihood of past history being reversed. Hence the mention of Mr. Cooper's name for the United States senatorship is not likely to give either Lieutenant Governor Knorr or Governor McGovern any wakeful nights.

They will be much more interested in the moves of Senator Stephenson.

Prospective candidates which will come into full bloom during the opening of the new year, are continually cropping out. It is said by politicians from the Twenty-third senatorial district, comprising the counties of Waushara and Portage, that George B. Nelson of Stevens Point will be a candidate for senator from that district on the republican ticket against Don C. Hall, who announced his candidacy for the senatorial nomination some time ago.

Nelson Leaves Field.

Mr. Nelson was mentioned last year in connection with the congressional nomination in the Eighth district but was ill, leaving the field to Senator J. E. Browne, who was nominated and elected. It is expected that other candidates will be in the field when the primary campaign is fairly opened.

In the Fifteenth senatorial district, where Senator S. W. Kandolph's term expires next year, it is reported that Assemblyman Carl Hansen of Manitowish will be a candidate for the place. Mr. Hansen has served two terms in the assembly. Another possible candidate is former Assemblyman Henry Rollman of Chilton, who served in the assembly in the legislative sessions of 1907-09.

Down in the Third district, which includes Racine and Kenosha counties, it is said Assemblyman C. H. Everett may enter the race for the senatorial nomination next year.

Senator J. H. Bishop is now serving his second term and has been in perfect health for some time, which may prevent him from becoming a candidate for renomination.

EAST CENTER

East Center, Sept. 24.—A few from here attended the Elkhorn fair last week, also the Madison fair.

LONDON

By GEORGE FITCH, Author of "At Good Old Siwash."

London is the capital of the British empire and the terminus of the Atlantic multi-millionaire. It is the plug hat, motor bus, chimney pot and music hall metropolis of the world. It also has more people than any other city but does not talk as large as New York nor feel as big as Los Angeles, California.

London is a thousand years old but looks younger in spite. It is built of brick and stone veneered with soot. Five million chimneys keep pouring smoke into London air which is a dark brown substance that has to be breathed with a fork when it is thickest. A London fog is a terrible thing and often forces pedestrians to take refuge in London stores from which they cannot escape until they have bought something.

London is noted for its fine churches. St. Paul's cathedral and Westminster Abbey. These churches were built many centuries ago when London was only a small city but they have never had to be enlarged in spite of the earnest efforts of General Booth and other missionaries.

A GOOD COUGH CURE

Do you remember the good old cough cure mother used to have? It didn't taste like cherry pie but it did cure a cough in a hurry. Mr. Pfennig, Graduate Pharmacist and Chemist, makes our cough balsam by percolation direct from the roots, bark and balsams of wild cherry, bloodroot, Lobelia, white pine bark, Thymus, containing the full medicinal virtue and strength of each drug, making it into a syrup we call Badger Cough Balsam. It is made after an old prescription which is today the best cure for any cough, bronchial or lung trouble, healing and soothing to the irritated throat and lungs, it cures by assisting to expel the phlegm from the lungs, not by drying the system with morphine and chloroform as do the modern patent cough remedies, deadening the nervous system, stupefying the lungs into retaining the mucus, thereby bringing on possible pneumonia and pleurisy. Badger Cough Balsam is a trustworthy expectorant, it loosens up and expels the phlegm. Get a bottle today for yourself or the children. It's safe to use. 25c. Badger Drug Co., Milwaukee and River streets. The Drug Store that makes a specialty of drugs.

FORTY YEARS AGO

Janesville Daily Gazette, Sept. 24, 1873.—Burglary: The boot and shoe store of Mylar & Evenson on East Milwaukee street, was entered last evening the thieves gaining entrance into the store from the rear by cutting a hole through a light of glass, and removing the fastenings from the window. A watch and a box of shoes were taken and probably other goods, the proprietors of the store being unable to determine the exact amount of the loss. The affair was quickly conducted, the thieves getting away with their plunder without disturbing anyone.

There was assembled last night within the new building of the new Harris works, two thousand of our citizens. The occasion was the big ball given by the workmen of the factory to which they all invited all

their friends. The lower room of the building was devoted to dancing, the music and the speaking, while in the above room tables were set for the hungry. The Bower City band and the Catholic Quadrille band furnished the music. Among the opening exercises of the evening were brief remarks and a twenty minute speech by Congressman Williams. After the speaking had closed music and dancing kept the fiddlers busy until half past four in the morning. The room occupied as dancing hall was sufficient in size to accommodate three hundred couples and during all the available space was occupied. This was by far the largest gathering of the sort ever held in our city and its success is due to the efforts of the men in the Harris works who planned and executed all the arrangements.
